A greeting and an intro from Crandon's new Superintendent of Schools

Hello Crandon, I am Doug Kryer your new superintendent and I am very eager to meet and get to know my new community of importance. Each person is special to me and I look forward to making positive relationships and showing the students of Crandon how important education is to helping develop a future with as many options as possible. Education has allowed me opportunities I would otherwise not have had available to me and I am appreciative to those who guided me through my educational path that has led me to Crandon.

Personally, I have been married for 29 years to a magnificent woman, Laurie. We are fortunate to have two wonderful children. Our daughter, Clair who is 26 and teaching English at Weston High School and our son Zach who is 25 and a graduate of Necedah High School. My daughter is married to a great young man, Mike, and they have blessed us with two grandchildren, Stuart who has truly been the joy of our lives for all of his 2½ years and Emma a bubbly bundle of 6 months.

My wife and I moved here from Central Illinois where I ran a corporate hog farm and hunted quail with my first bird dog. We have loved Wisconsin ever since that move so many years ago. We have lived south of Mauston on 235 acres for the past 27 years and have enjoyed it as a great place to raise kids and make friends. I come to Crandon with the same expectations of making friends and creating community connections to promote the partnering of school and community for the betterment of all.

IRS-Impersonation Telephone Scam

An aggressive and sophisticated phone scam targeting taxpayers, including recent immigrants, has been making the rounds throughout the country. Callers claim to be employees of the IRS, but are not. These con artists can sound convincing when they call. They use fake names and bogus IRS identification badge numbers. They may know a lot about their targets, and they usually alter the caller ID to make it look like the IRS is calling.

Victims are told they owe money to the IRS and it must be paid promptly through a pre-loaded debit card or wire transfer. If the victim refuses to cooperate, they are then threatened with arrest, deportation or suspension of a business or driver's license. In many cases, the caller becomes hostile and insulting.

Or, victims may be told they have a refund due to try to trick them into sharing private information. If the phone isn't answered, the scammers often leave an "urgent" callback request.

Remember, the IRS will never call to demand immediate payment, nor will the agency call about taxes owed without first having mailed you a bill; demand that you pay taxes without giving you the opportunity to question or appeal the amount they say you owe; require you to use a specific payment method for your taxes, such as a prepaid debit card; ask for credit or debit card numbers over the phone; or threaten to bring in local police or other law-enforcement groups to have you arrested for not paying.

Tim Bahr to be speaker at Crandon Memorial Observance

The Memorial Day services for Crandon will be on Monday, May 25. The guest speaker will be Tim Bahr. The parade on lake avenue will start at 9:30 a.m. this year. The ceremony will follow immediately after the parade in front of the Veteran Memorial Building in the Forest County Courthouse Square. Tim Bahr will also be the master of ceremony for the event. Tim Blank will be chaplain. The Crandon High School Band will provide the music for the event.

Lakewood Trout Rearing Station Work Day

In 1940 the WPA (Work Project Administration) employed local men to build the Lakewood Trout Rearing Station on the shores of John Lake just outside of Lakewood, Wisconsin. Jesse Landwehr, Wisconsin Department of Natural Resources Operations Supervisor, reports that the station has turned out nearly 200,000 rainbow, brown, and brook trout annually. These fish have been used to stock the waters of 16 counties across northern and central Wisconsin.

The WDNR found itself facing financial constraints and were forced to close the facility in the Spring of 2011. Since then, only a portion of the area's stream quotas have been fulfilled by other trout rearing facilities.

McCaslin Lioness pick up litter

It's the week before the Lioness Faire (May 24th) and the ladies were out beautifying our Northwoods during the annual Highway Cleanup. Because of the kind negligence of the slobs who threw their garbage out of the car window, these ladies were able to take time off from doing something they might have enjoyed to clean up.

He spent two years in Loss Control Engineering and was then promoted to the Adjustment Division. Factory Mutual is the largest insurer of Fortune 100 companies and this provided many opportunities to visit locations across the United States.

In 1996, Marty accepted a position as Manager of Property Claims with Heritage Mutual in Sheboygan, WI. Heritage has been renamed ACUITY, A Mutual Insurance Company and has seen phenomenal growth and success over the past 18 years. In 2015, ACUITY was ranked #3 in the 2015 FORTUNE 100 Best Companies to Work For in its first year of eligibility for the large company category. In 1997, Marty obtained his Chartered Property and Casualty Underwriter (CPCU) designation. Marty and his team handle all of the large property claims at ACUITY and he is involved in the catastrophe handling and planning, reinsurance programs, and the training and education of employees and agents. He is active in local, regional and national claims organizations and has been a presenter on a wide array of claims topics.

Marty got married in 1987 to a fellow Platteville alumnus, Sara, and they have 3 children, Natalie, Alex and Lucas (23, 21 and 17). Family has always been a priority for Marty, as demonstrated by his youth coaching in basketball, baseball, softball and soccer. This summer he will conclude his 17th year of coaching soccer.

In his spare time, Marty likes to spend time with his family, golf, hunt, travel and spend time "Up North" at the family cabin near Argonne.

Townsend receives 2nd check from Oughton family for park

Park Pavilion built and donated by McCaslin Lions Club.

Former Townsend cabin owners Lucille and Ray Oughton Sr. passed away many years ago, and hardly anyone living in Townsend remembers them. However, their legacy lives on in a uniquely rich fashion. In 1960, the couple donated three acres of land on Pickerel Lake to be used as a community park. It is a prime piece of real estate, beautifully wooded with a lovely view of the lake, a sandy beach, a covered pavilion and toilet facilities built and donated by the McCaslin Lions Club, charcoal grills, picnic tables, and a public boat landing. Over the years, the park, which is off the beaten path, has been used for

family gatherings and community events, but due to tight budgets, maintenance and improvement of the site has not been a priority.

Now, due to two of Ray and Lucille's children (also named Ray and Lucille), a badly needed makeover of Oughton Park is underway. Ray Jr. (Bud) and his wife Barbara of Woodstock, Illinois, visited Townsend for the first time in six decades in October 2014. After touring the park, Bud was so impressed he sent a donation of \$1000 to be used for park upkeep. Upon hearing that, his sister Lucille (Oughton) Kuhn of Texas sent a matching donation in March of 2015 and included a note with her check: "My brother sent me a copy of the article about the park that was in (your local) paper. We down here (Texas) are so glad the park is used, and has been improved and added to. Enclosed is my appreciation of your efforts to maintain and use the park and honor the memory of my parents. Use it well."

Town workers Claude Bowman, Rick Opiela and Jim Leisenfelder, began by removing many dead and dying trees, bulldozing the stumps and leveling off the soil. They are in the process of seeding the disturbed areas. Town Supervisor, Carla VanCamp, says once that is finished, the Town will install new benches and swings. As always, it takes community involvement to move something like this forward. Duane Harris, owner of Harris Tree Service in Wabeno, generously donated his expert

services, having his crew chip the brush and dispose of the wood. "The job is turning out to be a lot more work than we anticipated," Duane laughed, "but I volunteered, and when I promise something, we get it done."

Centennial Chair, Kathleen Marsh: "Kudos to the Town workers and Harris Tree Service. They have done a great job. We eagerly anticipate showing off Oughton Park to the public next year when it will be the site of our 2016 Centennial Pie Social and Suffragette Rally event. Make plans to attend on August 20, 2016 at 1:00 p.m."

Town Chairman, Bruce Karow, concurs. "Thanks to the Oughton family's continued generosity, Townsend has a beautiful park that the entire community can enjoy for decades to come."

Death Notices

Todd M. Conn, age 54, of Waupun, passed away on May 14, 2015 unexpectedly due to smoke inhalation from a fire.

Todd is survived by parents, Bob and Glenda Conn; brothers, Alan and Ed; sister, Michelle; one son, Cory; and four grandchildren, Tabatha, Austin, Andrea and Jacelyn. Todd lived in Waupun with a caregiver.

He always had a story to tell, loved guitar and rock and roll. He was a "win all" computer gamer. He never met a game he couldn't beat.

Todd's heroes were Lee VanCleve and his grandpa, Herb Adams, because, as he put it, "They knew how to do stuff." His best friend was "Grama Mabel" and "Junior Queen."

When he was four years old, he learned "I'm Henry the 8th, I am" and sang it until we all thought we'd go crazy. We loved him. He will be sadly missed.

We should all learn to appreciate the good times as we are here for a good time, not a long time. Tell people you care before God takes us. There should never be a coulda, shoulda, woulda - after it's too late. Money is not the only game in town. Caring is much more rewarding. Have a nice day now. - Bob and Glenda Conn and family.

Martha "Grace" Braun, age 90, of Wabeno, passed away at the Nu-Roc Community Health Care Center on Saturday, May 16, 2015. Grace was born in Flint, Michigan on November 18, 1924, the daughter of John Carlton and Esther Ruth (Sherbert) Beckett.

After school she moved to Racine where she met and married Ray Anderson. Together they had three children, Ray, Linda, and Gary. The couple later divorced.

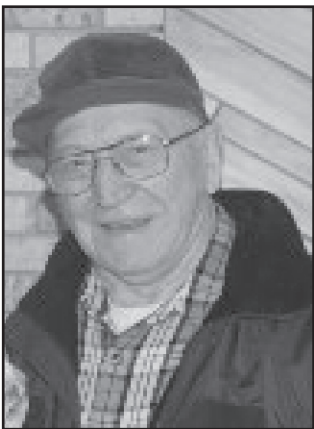

On November 22, 1977, she married Marty Braun. She expanded her family with three step-children, Barbara, Pat, and Joey. Marty preceded her in death on November 27, 1999.

After her marriage to Marty, she owned and operated many taverns in southeastern Wisconsin. In 1974, she moved to the Townsend area and bought the Valley Inn and operated it until her retirement in 2005. Grace was very active in her community. She enjoyed having Easter egg hunts at the Valley Inn. She was a member and actively involved in many organizations; including the WI Tavern League, where she served as Secretary for 21 years. She was also a member of Red Arrow Snowmobile Club. Her greatest enjoyment was helping the less fortunate in the community.

She is survived by daughter, Linda (Mike) Beranek of Wabeno; son, Gary (Chris) Anderson of Lakewood; daughter-in-law, Roe Anderson of Menasha; step-children, Joe (Peggy), Braun of Sturtevant, Pat Greye of Chippewa Falls; siblings, Betty (Eddie) Istvanek of Kenosha, Gladys Clausen of Racine, Mary Zyrowski of Madison Heights, MI, and Bill Beckett of Racine. She is further survived by numerous grandchildren, great-grandchildren and great-great-grandchildren.

In addition to her husband, Marty she is also preceded in death by her parents, John and Esther; son, Ray Anderson; step-daughter, Barbara and siblings, Goldie, Bertha, Evelyn, Daisy, Harold, Eddie, Jim and John.

Funeral service for Grace was on Wednesday, May 20, 2015 at 11:00 a.m. at St. John Lutheran Church, Townsend. Pastor Stephen Mueller officiated. Visitation was from 9:00 a.m. until the time of service at the church. Interment was at Forest Home Cemetery, Townsend. Online condolences may be sent to the family at www.weberhillfuneralhome.com.

discharged as a Corporal. He worked at multiple trades including his own masonry business. His one true passion was enjoying nature. He enjoyed all aspects of it; hiking, hunting, and fishing. Elk hunting was Jim's favorite, due to the gorgeous areas in which he hunted.

Joint Finance Committee Advances Educational Technology Initiatives

Local schools will benefit from reinvigorated program to bring technology to the classroom.

Madison, WI – Rep. Rob Swearingen (R - Rhinelander) released the following statement after the Joint Finance Committee (JFC) supported a budget motion to expand digital learning, educational technology, and broadband expansion for underserved schools throughout Wisconsin. The initiative was recommended by the Speaker's Task Force on Rural Schools, that Rep. Swearingen chaired last session.

The TEACH (Technology for Educational Achievement in Wisconsin) program was originally created under the Governor Tommy Thompson administration in 1997. TEACH was created to help schools integrate modern technology to provide digital learning practices. Currently, the TEACH program, administered by the Department of Administration, is no longer sufficiently funded. Representative Mary Czaja (R-Irma), a member of the JFC and Task Force on Rural Schools, introduced a motion to reinvigorate the TEACH program, which expands educational opportunities to rural Wisconsin regions that are lacking modern technology.

"This is great news for schools in the Northwoods. Students will benefit from the expanding digital learning and technology. This was the result of more than a year of collaborations with stakeholders, legislators and the Governor, and our rural schools stand to benefit greatly," said Rep. Swearingen.

The motion includes funding to support a state digital learning collaborative, increased access to broadband, educational technology block grants, and teacher training grants for school districts. In addition, the motion specifies that schools with a high percentage of students enrolled in free or reduced price lunch will receive priority in block grant appropriations.

"Blocks grants for increased technology will allow our students in northern Wisconsin to interact on a state, national, and global level with other schools. For instance, digital learning allows students to partake in courses that may not be offered in their schools. Technology continues to expand and modernize around the globe, our students deserve the same access. I would like to thank Rep. Mary Czaja for taking this issue head-on, and working across the aisle to bring home a win for rural Wisconsin students," finished Rep. Swearingen.

The motion received unanimous, bipartisan support on Thursday, May 14. The budget deliberations will continue throughout May and June. Final passage will occur before the start of the next fiscal year, July 1, 2015.

Wabeno Lions Student Honors Banquet

Back Row (L to R): Jordan Burki, Dennis Ponton, Trevor Miotke, Justin Cassidy, Austin Andrews, Jacob Kroll, Amanda Pratt, Ceanne Harrison. Front Row (L to R): Mandi Jameson, Autumn Huettl, Lillian Bath, Allison Novak. (Missing from photo) Allissa Gill, Teagen Bodoh, Abigail Ashbeck

Fifteen Wabeno High School students were honored by the Wabeno Lions Club at its 40th Annual Student Honors Banquet on Monday, April 13, at The Springs. Each year, the Lions ask teachers from Wabeno High School to select a student that can be called outstanding in that teacher's particular field of study. He/she is the student of whom teachers can say "This is the student that I can point to as an example for others students in my class to follow." The students and their teachers are then invited to be guests at a banquet at which the teachers talk briefly about the students and then present them with award certificates designed by the Lions Club. Parents/guardians; other faculty, school staff, administration, and school board members; a guest speaker; and Lions Club members also attend.

This year's honored students were senior Ceanne Harrison (daughter of Pat and Dale Harrison) in girls physical education, senior Dennis Ponton (son of Dennis and Stephanie Ponton) in boys physical education, senior Justin Cassidy (son of Shawn and Christina Cassidy) in technology education, senior Jacob Kroll (son of Jeff and Rhonda Kroll) in English, senior Lillian Bath (daughter of Louis and Connie Bath) in physical science, senior Austin Andrews (son of Jeff and Karen Andrews) in Life Science, sophomore Allison Novak (daughter of Bill and Cindy Novak) in art, senior Amanda Pratt (daughter of Melody Sullivan) support superstar, senior Trevor Miotke (son of Oliver and Becky Miotke) in social studies, senior Mandi Jameson (daughter of Duane and Amy Jameson) in foreign language, junior Allissa Gill (daughter of Peter and Kristie Gill) in mathematics, junior Abigail Ashbeck (daughter of Michael and Jeanine Ashbeck) in business education, junior Teagen Bodoh (daughter of Bart and Chris Bodoh) in vocal music, senior Autumn Huettl (daughter of Erhard Jr. and Tracy Huettl) in family and consumer education, and freshman Jordan Burki (son of Ed and Michelle Burki) in instrumental music.

In addition to an excellent meal, the students and guests were treated to an inspirational presentation by guest speaker Grant Sackett. Grant was a Lions Honor Student in Technology Education in 2000. He was born and raised in Lakewood and graduated from Wabeno High School in 2001. After graduating he joined the U.S. Air Force as a Munitions System Specialist. While living in Germany he proudly served in both Operations Enduring and Iraqi Freedom. After leaving the Air Force in 2005, he returned home and attended Nicolet College in Rhinelander, obtaining an Associate's Degree as a Land Survey Technician. During this time his daughter Taylor was born. Grant refers to her the highlight of his life.

Upon graduating he relocated to Port Washington, WI where he worked in the land surveying field. The downturn in the housing market forced him to find a different career path. Grant is currently employed as the Warehouse Manager and Safety Coordinator with D.D. Williamson Colors, and will be receiving his Bachelor's Degree in Business Management from Cardinal Stritch University in December.

Grant spoke to the students about knowing where you are and where you want to be, and then figuring how to get there, knowing there may be detours along the way. He advised them to be ready to put in whatever effort is needed, to find and maybe even be role models, and to educate themselves, whether formally or not, being prepared to be lifelong learners. Using the life stories of several famous people, he reminded them that getting what you want from life depends on attitude and perseverance. Grant concluded with the saying "You can't change the wind, but you can adjust your sails."

In addition to the Wabeno High School Honors Banquet, future Wabeno Lions sponsored events include a dinner for local senior citizens on April 24 and the Wabeno High School Senior Banquet on May 13. The Lions will also select high school students to receive scholarships and service awards.

The Wabeno Lions, whose motto is "We Serve," also financially support many other school and community activities. Those interested in becoming part of the Wabeno Lions Club should contact any member.

Now, new life is being breathed back into the station. A local group of concerned citizens have bonded to form the Northern Oconto County Trout Alliance (NOCTA). Their sole mission is the reopening and the ongoing management of the Lakewood Trout Rearing Station. The WDNR has agreed to work with NOCTA and train them in the skills necessary to raise trout through the summer months. The goal this year is to raise 16,000 brookies, all of which will be planted in northern Oconto County waters this fall. These efforts do not come without costs. It is estimated that \$2,500 will be needed to purchase the feed. Fundraisers and donations will be used to meet the expenses.

NOCTA is in need of help. We need volunteers to feed and oversee the fish throughout the summer months. The more individuals we have to share in the work load the lighter it will be. If you are willing to give us 1-2 hours per week please let us know. We are also having a work day on Saturday, May 30th from 9 am to 2 pm on the site which is located at 14865 Hatchery Lane. Everyone is invited to participate. Come and help us get the facility ready for the soon to arrive fingerlings! If you have any questions, or desire further information, please email noctroutalliance@gmail.com, or you can call Scott VanLaanen at 715-850-2904.

10 Scientific Reasons Spring is the Most Delightful Season

- Summer, winter and fall may have their fans, but spring is clearly the best season. Even science agrees!
1. Temperatures are moderate. Spring marks the end of blistering winter and the transitional period to scorching summer. The Earth's axis is angled between its closest and furthest position from the sun, when temperatures are the most extreme. You can finally ditch the water layers.
 2. There are more hours in the day. Following the spring equinox, when the Earth's horizon is perfectly aligned with the sun, the days begin lasting longer and the nights get shorter. That means you have more time in the day to get things done.
 3. All the animals come back. Many species of animals migrated south to follow their food supply during the winter. Once the spring returns, these animals do too. There is no better indicator of spring than birds chirping outside your window.
 4. There are baby animals everywhere. Animals reproduce in the spring when food is plentiful. Farms are overrun with adorable chicks, bleating kids and frolicking calves.
 5. You're actually happier. Exposure to sunlight increases the chemical serotonin in your brain, which makes you feel happy.
 6. You feel energized. Exposure to sunlight decreases the chemical melatonin in your body during the day and increases it at night, which helps you sleep better.
 7. Trees suddenly have leaves. Spring brings growth back to plants and trees. A successful spring leaf growth ensures a cool canopy to relax under during the hot summer.
 8. Plants turn green. It's amazing what a little sunlight, moisture and warm soil can do for plants and grass. Plants convert sunlight into energy and produce the pigment chlorophyll, which turns them green. And it's not just nice to look at -- a 2012 study found that people who saw green before a challenge came up with more creative solutions. Spring's green plant life will hopefully do the same.
 9. Fruits and vegetables are ready to eat. After staying dormant all winter and conserving energy underground, many fruits and vegetables sprout in the spring. There is nothing more pleasant than eating a peach right off a tree or a string bean from the pod.
 10. Flowers bloom. After months spent conserving energy, colorful flowers bloom in the spring, signaling to the bees that they are ready for pollination. And science has proven that looking at buttercups can make you happy.

Professionally, I came to education from the private sector with a B.S. in Farm and Ranch Management from Colorado State University, where I wrestled, and an MBS with a financial concentration from Edgewood College in Madison. My work background has been diverse. I have been a concrete flat work foreman. I have traveled to Alaska and split salmon. I was a swine herdsman managing a 200 sow corporate farrow to finish hog farm and have worked in animal feed and slaughter plants. My experience working for a school came as a wrestling coach for New Lisbon with a stretch of good years in the early 1990's. Then in 2000 I was afforded the opportunity to teach a Math class for Wonewoc-Center Schools, and I loved everything about being in Public Education. I sought and received certification to teach Business Education and in 2002 I taught Business Education for the Wonewoc-Center School District until hired by Mauston School District as the middle school Dean of Students and coached wrestling as the assistant for Mauston between 2002 and 2008. During this time I received my Doctorate in Education with my Thesis "Forgiveness as a Leadership Trait" developing a passion in me for research and practice of forgiveness. I truly believe forgiveness is an integral part of of what we need to incorporate into our daily routines to help our students, staff, and community function at the highest levels possible. I have been to the valley of life and to the peaks of success and understand they are not that far apart. I hope to use my life experiences to help our young people understand that decisions are ongoing, and we impact tomorrow by what we do today.

On Thursday, April 30, students from the Wabeno 8th grade took a trip to the Fox Cities Performing Arts Center in Appleton to view a live performance. *My Heart in a Suitcase* is a play based off the real-life story of Anne Lehmann, a Jewish child growing up in Germany during WWII. The setting for the play depicts the hatred and violence that Anne and her family faced during one of history's darkest times.

Students from Wabeno recently finished a unit on the Holocaust and a reading of *Night* by Elie Wiesel. Having the opportunity to attend a live performance centered on the same era and similar events was especially powerful for them. Day Breanne Winkler, a WHS student, commented, "It was amazing because it was from the viewpoint of someone who was actually there and lived through it." Baylen Caley, another 8th grade student, said, "It was fascinating because it was based on a true story." All of the students enjoyed the performance and gained a new appreciation for those who endured this infamous time in our history.

**Holt & Balcom Logging Camp
to open June 13th**

Suring students using crosscut saw.

Holt and Balcom Logging Camp Museum in Lakewood announces that its 2015 season officially starts June 13. The Museum will be open on Saturdays 10-3 p.m. until August 29. Mark your calendar for June 27 when Holt descendant Don DeWitt will give a presentation featuring movie footage filmed by his great-grandmother Lucy Holt.

Camp Curator Kathleen Marsh also reports that school tours are well underway. "Education of school children is our primary mission, and Wausaukee and Suring have already visited the oldest logging camp in the USA sitting where it was built (1880-81). Wabeno and Pulaski will tour the camp after Memorial Day." Tours are scheduled and run by Camp Manager Bob Brown, with assistance from long-time volunteers Bernie VanDreel, Jon Marsh and Don Siefert.

Bob explains: "As part of their study of Wisconsin history, fourth graders visit the camp each year to learn firsthand about their logging heritage. The tours are interactive and hands on. Students get to stamp and saw a log, sit at the long tables in the cookshack as they learn about camp life, see a diorama picturing the camp as it was in 1887, walk about the dingle where they can get up close and personal with camp implements, and relax on benches in front of straw-mattress beds as they learn about the many hand tools used in logging's early days.

Keeping the roadway clean

Since 2009, this group has helped with the program, Adopt-A-Highway, in memory of Gordon and Edith Calhoun. Helping to keep this patch of roadway clean is Suzette Smith, Patsy Alwin, Tina Knepprath, Shirley Bailey, Marie Rugg, Burt Rugg and Gretchen Rugg.

They've been cleaning the roadway twice a year, once in the spring and once in the fall. They now have another spring under their vests.

Because of a recently acquired artifact, they can even sit on an actual log, cut and stamped by a Holt and Balcom crew over 125 years ago!"

Holt & Balcom is located off Highway F, one and a half miles east of Lakewood on Country Club Lane behind the McCauslin Golf Course Clubhouse. Special tours of the Museum for family and community groups can be arranged by calling Bob at 715-276-3505.
